

# AVITA

collection

BATTILOSSI

*af 1979*

The desire behind Avita is to add a layer of sophistication to the flatweave carpet. Our intention is to create a great product with such complex workmanship that the difference between a handknotted carpet and a flatweave creation is blurred. To achieve this, we have experimented with different weaving techniques and embroidery. Intense yet natural colours, the finest handspun Ghazni wool, kilim weaving and mixed weft wrapping techniques (soumak) come together to give the collection a unique look. These exceptional rugs express their character through materiality and spectacular colour. Designed for contemporary and modern interiors, they work in perfect harmony with marble, wood and leather.

Drizzle - Haze

Storm - Cactus

«Avita has the scent of the sea, the roughness  
of the sand and the bright tones of nature»
