BATTILOSSI

OUR WORK IS ART

WHO WE ARE

There is an irresistible symmetry to the rugs appearing in this lookbook. Three brands united in one purpose—to create exceptional carpets—guided by three principles: quality, originality and beauty. Battilossi has been associated with connoisseurship in the textile arts for two generations; Lapchi is the leading maker of bespoke rugs in North America; and Tak Özer has been at the forefront of rug making in the Indian Subcontinent and Nepal for over 25 years. Each rug, each project and each collaboration unites the experience of these three, with unique woven artworks of the highest quality as the result.

ECLECTICA

Eclectica brings together the different skills of all the team members. It is the innovative vision of a designer with a passionate devotion to beauty in handmade rugs. Designed in Italy and hand-knotted in Lahore, the process entails particularly complex weaving techniques and supreme attention to detail, with the unique surface achieved through the meticulous work of a team of restorers of antique rugs. Small-pot dyeing heightens the texture in a celebration of colour.

PATTERN
MIX

The collection is the result of matching a small technical weaving feature particular to our workshops in Pakistan with the vision of designer Draga Obradovic, whose fabrics combine hand-printing and painting with the organic look and feel of vintage textiles. The ability to reflect the clarity and purity of Draga Obradovic's original work is the result of the exquisite skill of the Lahore weaving studio and the extremely detailed finishing of each carpet.

CAPSULE COLLECTION

FORMA ET TINTA

Forma et Tinta, the first capsule collection by Galleria Battilossi and Lapchi, is revolutionary in three ways: a new approach to colour, a new perspective on form and a unique woven structure. By using multiple planes and blocks of deep colour, the carpets achieve a fluidity that is reflected in their organic shapes. The carpets are woven with a new technique that combines pile with areas of flatweave resulting in a signature woven look, giving the blocks an additional depth and earthy tone.

LINEA

Fields of colour run throughout the collection, accented by roughly drawn lines. The coarse weave perfectly shows the quality of the wool and allows the variations in colour, achieved through a special dyeing process, maximum expression. The collection is designed for use in less formal but modern interior settings and to reflect the warmth, and texture, character and familiarity expected in areas of constant use.

SERIES 2 #1

Innovation drives all of our collections, and finding a new spirit from the traditional weaving techniques from Tibet was the starting point for this series. The experience and deep knowledge of our whole team was distilled into the new weave and finishing of these rugs. The handmade and organic feel, the unique signature of all our carpets, is successfully combined with our artisans' ability to weave complex patterns with the material associated with the best Nepalese carpets.
